## BUILDING AND HOUSING 1969-70

---

W. M. BARTLETT  
DEPUTY COMMONWEALTH STATISTICIAN  
AND GOVERNMENT STATISTICIAN

---

By Authority: WILLIAM C. BROWN, Government Printer

1971

7320/6/71-400

## ROUNDING OF FIGURES

Many of the figures appearing in the tables have been rounded to thousands without making those adjustments which would be needed to make the rounded figures add to the rounded total. For this reason figures do not always add to the totals shown in the tables.

## BUILDING STATISTICS

Tables in this section show details of building operations in Western Australia. Statistics for each series *ab initio* appeared in Part XII of the *Statistical Register of Western Australia* for 1965-66. For additional information concerning building activity in Western Australia and for comprehensive data relating to other States and Territories and Australia as a whole, reference should be made to the publication *Building and Construction* published annually by the Commonwealth Statistician, Canberra.

The Commonwealth Bureau of Census and Statistics, Canberra publishes current building statistics in the monthly statement *Building Approvals* and the *Quarterly Bulletin of Building Statistics* and, in summary form, in the *Monthly Review of Business Statistics*, the *Quarterly Summary of Australian Statistics* and the monthly *Digest of Current Economic Statistics*. The Western Australian Office of the Bureau publishes similar information for Western Australia in the monthly release *Building Permits and Approvals*, the quarterly statements *Building Operations* and *Number of New Houses and Flats (preliminary estimates)*, the *Monthly Statistical Summary* and the *Quarterly Statistical Abstract*.

### SCOPE OF THE STATISTICS

Since the end of the second World War, the Australian Statisticians have undertaken a quarterly collection of statistics of building operations. The first of these collections in Western Australia related to the quarter ended 30 September 1945.

The survey covers the activities of building contractors who undertake the construction of new buildings; the building operations of Commonwealth, State, semi-government and local government authorities; and work performed by 'owner-builders' (see definition *Owner-built* on page 5). Minor alterations and/or additions, private outbuildings (garages, carports, etc.), repairs and renovations, and temporary buildings are excluded. The figures relate only to the erection of buildings, as distinct from the construction of railways, bridges, earthworks, etc.

In general, building operations may be undertaken only after the issue of a permit by the local government authority concerned. There are, however, in some Shires outside the Perth Statistical Division, areas where this condition does not apply. Details of building operations obtained from government authorities and from building contractors refer to all areas whereas details for 'owner-builders' cover only the areas subject to building control by local government authorities. The omission of the activities of 'owner-builders' in areas not subject to local government authority control does not materially affect the statistics.

### EXPLANATORY NOTES AND DEFINITIONS

**Building Permits and Approvals.** Statistics of building permits and approvals are compiled from:

- (a) building permits issued by local government authorities in respect of *areas subject to building control*, and
- (b) contracts let, work commenced or work authorised by government, semi-government and local government authorities *throughout the whole State*.

**Private or Government Ownership.** A building is classified as 'Private' or 'Government' according to ownership at time of commencement. Thus 'Government' includes buildings erected for Commonwealth and State Governments, semi-government and local government authorities, either by contractors or by day labour, whether these buildings are for their own use or for rental or sale after completion. Buildings erected for private ownership, or which are financed or supervised by government authorities but erected for *particular persons*, are classified as 'Private'.

**Alterations and Additions.** Prior to 1 July 1966, additions valued at \$10,000 or more to buildings other than houses were classified as 'new' buildings. From 1 July 1966, alterations and/or additions valued at \$10,000 or more to existing buildings of all types have been included as 'new' buildings. The total value of alterations and additions of less than \$10,000 is shown separately in Tables 1 and 2 relative to building permits and approvals.

**Houses and Flats.** The numbers shown relate to individual houses and flats, constructed as separate living units. Temporary dwellings, sheds, huts, etc. are excluded. Figures for flats include 'home units'. Dwellings attached to other new buildings are not included in the *numbers* shown, but their *value* is included with that of the buildings to which they are attached.

**Commenced.** A building is regarded as having been commenced when work on foundations has begun. Owing to the difficulty of defining the exact point that this represents in building operations, classifications made by informants may not be entirely uniform. A building is reported *once only* as having been commenced, whether or not work has actually proceeded at all times during its construction.

**Completed.** A building is regarded as having been completed when the building contractor has fulfilled the terms of the contract or, in the case of owner-built houses, when the house is either completed, or substantially completed and occupied. The value shown is that of the building as a finished project. As with commencements, the classifications made by informants may not be entirely uniform.

**Under Construction (i.e. Unfinished).** A building is regarded as being under construction if it has been commenced but not completed, whether or not work on the building is actively proceeding. Buildings on which work has been permanently abandoned are excluded.

**Owner-built.** An owner-built house is one actually erected or being erected by the owner or under the owner's direction without the services of a contractor responsible for the whole job.

**Contract-built.** Includes the operations of all building contractors and government authorities who undertake the erection of new buildings.

**Values.** Values are the estimated values of new buildings as finished projects (i.e. value when completed) and exclude the value of the land.

**Value of Work Done.** The values shown in Table 17 represent the estimated value of work actually carried out on buildings during each year (i.e. on buildings completed and under construction). For any building, the sum of these values obtained during its construction equals the value of the building on completion. Data relating to the value of work done on owner-built houses (see definition *Owner-built* above) are not collected. However, the figures shown for the value of work done include a component relating to owner-built houses, calculated on the basis of the figures collected for the value of such houses, commenced, completed, and under construction.

**Type of Building.** A building is classified according to the function which it is intended to serve. A building which is ancillary to other buildings or forms part of a group of related buildings is classified according to the major function of the group as a whole. Examples of the types of individual buildings included under each main functional heading are shown below.

*Hotels, hostels, etc.* includes motels, boarding houses and guest-houses.

*Shops* includes cafes, restaurants, retail markets and showrooms.

*Factories* includes abattoirs, bakeries, gas works, power houses, printing offices and government workshops.

*Office premises* includes banks, insurance offices, government offices, municipal chambers and post offices.

*Other business premises* includes railway station buildings, bus depots, service stations, telephone exchanges, broadcasting and television stations and studios, and warehouses.

*Education* includes schools, colleges, kindergartens, reference libraries and university buildings.

*Religion* includes churches, church halls, convents, seminaries and theological colleges.

*Health* includes ambulance stations, infant health centres, convalescent homes, hospitals, nurses' quarters and sanatoria.

*Entertainment and recreation* includes clubs, grand stands, public halls, squash courts and theatres.

*Miscellaneous* includes museums, art galleries, homes for the aged, benevolent homes, orphanages, defence buildings, law courts, police stations and reformatories.

**Persons Working on Buildings.** The figures appearing in Table 18 relate to persons working on the jobs of contractors who undertake the erection of new buildings and of government authorities which erect new buildings on their own account. They include persons actually engaged on alterations, additions, repairs and maintenance when these jobs are undertaken by such contractors and authorities.

The figures for employment exclude those working on owner-built houses. Employees of builders who undertake only alterations, additions, repairs and maintenance are also excluded.

Informants are asked to give details of all persons working on their jobs on a specified day, including working principals, men working as or for sub-contractors, and men temporarily laid off on account of weather. Because of the intermittent employment of various types of sub-contractors on any particular job, it is sometimes difficult for informants to provide precise particulars of the number of sub-contractors and the number of employees of sub-contractors working on their jobs on the specified day. This factor may cause some understatement in the figures shown. In other cases, because of frequent movement between jobs of some types of tradesmen, such as electricians, who may work on several jobs on the one day, some duplication may occur.

**Local Government Areas.** Local government areas in Western Australia are designated Cities, Towns and Shires. In all tables where a dissection according to local government area appears, Cities are marked (C) and Towns (T). The names and designations shown in the Tables are those which were current at 30 June 1970.

Particulars of the numbers of houses completed in individual local government areas are available from 1947-48. A table showing completions in each year from 1947-48 to 1954-55 appears on pages 35-7 of Part XII of the *Statistical Register of Western Australia* for 1954-55. Completions in later years are shown in the corresponding table in succeeding issues or in *Building and Housing*.

Statistics of flats completed in local government areas are available from 1954-55 and are given for each year up to 1965-66 in Tables 35 and 36 of the 1965-66 issue of Part XII. Later statistics of completions appear in Part XII for 1967-68 or in *Building and Housing*.

(a) The Town of Midland was united with the Shire of Swan-Guildford to form one municipality named the Shire of Swan, with effect from 1 April 1970. (b) The name of the Shire of Upper Blackwood was changed to the Shire of Boyup Brook with effect from 30 May 1969. (c) The Shire of Bridgetown was united with the Shire of Greenbushes to form one municipality named the Shire of Bridgetown-Greenbushes, with effect from 26 March 1970. (d) The Shire of Donnybrook was united with the Shire of Balingup to form one municipality named the Shire of Donnybrook, with effect from 26 March 1970. (e) Comprises the former Town of Boulder and Shire of Kalgoorlie. The district of the Town of Boulder was abolished with effect from 15 August 1969 and the outlying land which formerly comprised the Town of Boulder was annexed to the Shire of Kalgoorlie with effect from 18 August 1969. The name of the Shire of Kalgoorlie was altered to the Shire of Boulder with effect from 12 December 1969.

(a) The State Housing Commission was constituted in January 1947 to replace the former Workers' Homes Board. Completions shown for periods prior to that date represent operations of the Board. (b) Comprises houses and individual flat units. (c) Excludes 282 housing units built for the McNess Housing Trust during the years 1945-46 to 1963-64 and 653 units built for BP Refinery (Kwinana) Pty Ltd between 1952-53 and 1955-56 under the provisions of the Oil Refinery Industry (Anglo-Iranian Oil Company Limited) Act of 1952. These schemes were incorporated with State Housing Act operations during the year 1968-69. (d) The figures shown represent housing units built by charitable organisations in connection with which the Commission provided design and supervisory services. (e) Comprises 77 units under the provisions of the *Laporte Industrial Factory Agreement Act, 1961-1965*; 55 units in terms of the *Broken Hill Proprietary Company's Integrated Steel Works Agreement Act, 1960*; 128 units for the Exmouth Development Scheme; 28 units for the Project Development (Special Agreements Scheme), and 33 units for the Shire Building Scheme to house local government employees.

## SUMMARY OF DWELLINGS: CENSUSES, 1961 AND 1966

### EXPLANATORY NOTES AND DEFINITIONS

*The figures in Tables 20-31 exclude particulars of dwellings occupied solely by full-blood Aborigines. Such dwellings were excluded from the Census tabulations in accordance with the requirements of section 127 (now repealed) of the Australian Constitution.*

**Occupied Dwelling.** For the purpose of the Census of Population and Housing an occupied dwelling is any habitation occupied by a household group living together as a domestic unit, and may comprise the whole of a building or only part of it. The term has therefore a very wide reference and includes, in addition to houses and flats, a great variety of dwellings ranging from a single-roomed shack to a multi-roomed hotel or institution.

**Unoccupied Dwellings** include vacant dwellings available for sale or renting; dwellings such as week-enders or holiday homes and seasonal workers' quarters which were not occupied on Census night; dwellings normally occupied but whose occupants were temporarily absent on the night of the Census; newly-completed dwellings whose owners or tenants had not entered into occupation on Census night; and dwellings described as 'to be demolished', 'condemned', 'exhibition home', etc. The total number of unoccupied dwellings does not, therefore, represent the number of vacant houses and flats available for sale or renting.

**Private Dwellings** comprise the following classes:

**Private house**, which includes semi-detached houses; terrace houses; and shared private houses for which only one Householder's Schedule was received.

**Share of private house.** A share of a private house is a portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was furnished.

**Self-contained flat.** A self-contained flat is part of a house or other building which can be completely closed off and which has its own cooking and bathing facilities. Home units are included in this class.

**Share of self-contained flat** is that portion of a self-contained flat for which a separate Householder's Schedule was furnished.

**Shed, hut, tent, etc.** includes sheds, huts, tents, garages, caravans and boats, which are used for dwelling purposes.

**Other private dwellings** include flats (not self-contained) and dwellings such as rooms, apartments, etc. which are parts of buildings but not self-contained units.

**Non-private Dwellings** include hotels; motels; boarding houses, lodging houses and hostels; educational, religious and charitable institutions; hospitals; defence and penal establishments; police and fire stations; clubs; staff barracks and quarters.

**Local Government Areas.** In Western Australia local government areas are designated Cities, Towns or Shires. In Table 20, Cities are marked (C) and Towns (T), all other local government areas being Shires. *The names and designations used are those which were current at 30 June 1966.* Between the Censuses, some new Shires were constituted, some local government areas were amalgamated, and there were some changes of name and of designation. These are listed below.

- (i) The Town of North Fremantle was annexed to the City of Fremantle with effect from 1 November 1961.
- (ii) Mosman Park, formerly a Shire, was declared to be a Town with effect from 26 January 1962.
- (iii) The Shire of Coorow was constituted, with effect from 1 July 1962, by severance of territory from the Shires of Carnamah, Dalwallinu and Perenjori.
- (iv) Melville, formerly a Shire, was declared to be a Town with effect from 28 September 1962.
- (v) The Shire of Exmouth was constituted, with effect from 1 January 1964, by severance of territory from the Shire of Gascoyne-Minilya.
- (vi) The Town of Carnarvon was amalgamated with the Shire of Gascoyne-Minilya to form the Shire of Carnarvon, with effect from 1 March 1965.
- (vii) The Town of York was amalgamated with the Shire of York, with effect from 15 March 1965, to form one local government area named the Shire of York.
- (viii) The name of the Shire of Geraldton-Greenough was changed to the Shire of Greenough, with effect from 19 March 1965.
- (ix) The name of the Shire of Trayning-Kununoppin-Yelbeni was changed to the Shire of Trayning, with effect from 10 September 1965.

The particulars shown in Table 20 for 30 June 1961 in respect of all local government areas mentioned in (i), (iii), (v), (vi) and (vii) above relate to the 1966 boundaries and have been derived, where necessary, from an examination of the 1961 Census schedules.

In addition, there were some other boundary changes which resulted in a change in the numbers of dwellings in particular local government areas. In these cases the 1961 dwellings data have been similarly adjusted to the 1966 boundaries.

**Further Sources of Information.** Additional information relating to dwellings enumerated at the 1966 Census is contained in *Census Bulletin No. 5.2—Summary of Dwellings: Western Australia* and *Census Volume 4, Part 5—Population and Dwellings in Local Government Areas: Western Australia* published by the Commonwealth Statistician, Canberra.

(a) Occupied and unoccupied. (b) For definitions, see *Explanatory Notes and Definitions* on page 23. (c) Includes share of private house; share of self-contained flat; flats not self-contained; sheds, huts, etc.; and dwellings such as rooms and apartments which are parts of buildings but are not self-contained. (d) See *Explanatory Notes and Definitions* on page 23. (e) Indicates those local government areas where a boundary change between the Censuses resulted in a change in the number of dwellings in the local government area; see note *Local Government Areas* on page 23.

(a) Minus sign(—) denotes decrease. (b) At the 1961 Census, 'Share of self-contained flat' was not tabulated as a separate class; where two or more household groups were occupying a self-contained flat they were counted as one household group occupying a self-contained flat. (c) Excludes full-blood Aborigines. (d) Comprises persons (both passengers and crew) who, at midnight on census night, were enumerated on board ships in Western Australian ports, or ships which had left Australian ports before census night for ports in Western Australia. It includes also persons enumerated on long-distance trains, motor coaches or aircraft.
